Armeen Rais

Developer, Software Development / Visual Designer

Hi, I'm Armeen. I'm a Website/Software Developer at MYEG, 3+ years experience developing, testing, and maintaining enterprise website applications. Designed and developed over 10 advanced websites from use cases and functional requirements. Before that, I got my Degree in Creative Media. I'm looking for experiences to learn more about career paths and ways to grow into assuming an Visual Designer role in the next few years. I would love to talk more about a potential mentorship with you if that's something you have time for and would be interested in.
